Sub:- Segregation of 11 KV feeder from urban to rural area .

Sir,

On 10.08.2013 during course of review meeting Hon'ble CMD, BSPHCL has directed to segregate 11 KV feeder from Urban to Rural area to ensure 24 Hrs power Supply to District / Commissionery Hq. Town. Month wise Plan to ensure 24 Hrs Power Supply to the District / Commissionery Hq. Town has been planned by CE,SLDC. In light of that segregation of 11 KV feeder are to be done by erecting double circuit line for rural & urban area both on same pole after physical verification/ Survey of site and prevailing condition or erection of separate feeder whichever is technically viable.

You are therefore, requested to take up necessary Steps to segregate the urban from rural areas by erection of separate feeder or through double circuit line.

This is important.

Yours faithfully

Sd/-
