**Sub:- Procurement of MS fabricated materials**

**Ref: This office letter no. 475, dated-27.07.13**

Sir,

Please refer to this office letter under reference on subject noted above through which you were requested to take necessary steps for procurement of MS fabricated materials at the earliest. But after a lapse of about one month action taken from your end is not known to us. While work of installation of additional D/S/S, reconductoring, installation of AB Switch, installation of L.A. & maintenance of H.T L.T. line are adversely affected for want of these materials. Besides of aforesaid work, works under Depos Head & Segregation of 11 KV feeders and other developmental work are also to be carried out. The field officer expresses their inability to execute the work in absence of these materials. This is adversely affected the progress with quality work and quick execution of work. Keeping in view the early execution of work under different heads, It is necessary to procure MS. fabricated materials based on rates on which the materials procured earlier.

You are therefore, requested to take immediate necessary action in respect of procurement of MS Fabricated materials at the earliest.

Yours Faithfully
