All Electrical Executive Engineers  
Electric Supply Divisions

**Sub:-** Installation of 2 nos of 200KVA and 5 nos of 100 KVA additional D/S/S in each Electric supply Division.

**Ref:** (i) This office letter no. 382, dated- 19.07.13  
(ii) This office letter no. 565, dated- 13.08.13

Sir,

With reference to subject noted above and in continuation of letter under reference, it is to inform that it has been decided for further installation / augmentation of 2 nos of 200 KVA Distribution transformer in District / Sub-divisional HQ town and installation of 5 nos of 100 KVA additional D/S/S in block H.Qr under each of Electric Supply Division. The location will be decided by concerned Electrical Executive Engineer based on nearby overloaded Distribution Transformers to cater load, areas covered by bill paying consumers, up-coming load, prospective consumers, improvement in voltage and other aspects. All DGM cum ESEs of concern Electric Supply Area had been asked to allot the PSC poles vide this office letter no. 496, dated 01.08.13 and concerned ESEs were requested to make it available to Central / Divisional stores to accelerate the aforesaid work. All ESEs have been regularly requested to arrange to lift the PSC poles as allotted and make it available but after enquiring from Central/ Divisional stores it appeared that PSC poles are yet to transported. Similarly MS fabricated materials were diverted vide this office letter no. 491 dated 31.07.13 and sent it through e-mail from one Central/ Divisional stores to another Central/ Divisional stores where these materials were not available. All ESEs /All ESEs have been regularly requested through mobile to transport these materials at the earliest. But after enquiring from Central/Divisional stores most of ESEs & ESEs have failed to transport these materials. In such way in lack of lifting of poles & its transportation and transportation of diverted materials it adversely affected the mission which is viewed seriously.

You are therefore requested to complete the installation work of 2 nos of 200KVA & 5 nos of 100 KVA additional D/S/S as target of the month besides of installation of 5 nos of 100 KVA and 5 nos of 63 KVA additional D/S/S which has already been allotted earlier through letter under reference.

**This is important.**

Yours Faithfully
