Letter No. 36

NB/SLDC/Misc.-60/14

Dated... 23/9/14...

From,

Jitendra Srivastava , IAS
Managing Director.

To,

All Electrical Superintending Engineer,
Electric Supply Circle,

All Electrical Executive Engineer,
Electric Supply Division,
North Bihar Power Distribution Co. Ltd.

Sub.:- To establish a circle level control room functioning as Circle Load despatch Centre (CLDC).

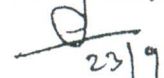

Sir,

A Circle Load Despatch Centre (CLDC) is to be created under personal monitoring of Electrical Superintending Engineer for power availability and drawl at circle level in addition to the ALDC functioning at HQ, Patna, enabling realistic planning for power purchase according to the actual requirement.

The following points shall be taken care for functioning of the CLDC.

1. ~~Additional staffs preferably regular (or maximum two from outsourcing Staff) may be engaged in CLDCs.~~
2. Electrical Superintending Engineer may depute one JEE Project of his area to monitor and control the load allocated and drawl by CLDC in addition to his own duty.
3. Hourly data of Allocation / Drawl of power from Grid to PSS/Feeders are to be maintained in the prescribed form/registers.
4. CLDC will maintain registers to record data and will remain in contact with ALDC.
5. A computer with Printer and a CUG sim is sanctioned for CLDC.
6. The CLDC is to function 24x7 hours, especially at night. Similarly Customer care centres are also to function 24x7.
7. All Electrical Executive Engineer are to report in real time all 33 KV B/D, 11 KV B/D, Distribution Transformer burning by SMS daily to C.E. (O&M), ESE, (O&M), ESE (Circle) and MD, NBPDCCL. Failure to do so will invite disciplinary action.

Yours faithfully,

23/9

(Jitendra Srivastava)
MD, NBPDCCL.
